

2023 Schedule of Preventive Care Services

This information highlights the preventive care services available under this *coverage* and lists items/services required under the Patient Protection and Affordable Care Act of 2010 (PPACA), as amended. It is reviewed and updated periodically based on the recommendations of the U.S. Preventive Services Task Force (USPSTF); Health Resources and Services Administration (HRSA), Centers for Disease Control and Prevention (CDC), U.S. Department of Health and Human Services, and other applicable laws and regulations. Accordingly, the content of this schedule is subject to change.

Your specific needs for preventive services may vary according to your personal risk factors. It is not intended to be a complete list or complete description of available services. In-network preventive services are provided at no Member Cost-share. Additional diagnostic studies may be covered if *medically necessary* for a particular diagnosis or procedure; if applicable, these diagnostic services may be subject to cost-sharing. Members may refer to the benefit contract for specific information on available *benefits or contact Customer Service at the number listed on their ID card.*

Schedule for Adults: Age 19 years and older

GENERAL HEALTHCARE*		
For routine history and physical examinat	tion, including pertinent patient education. A	dult counseling and patient education include:
Women		
Breast Cancer Chemoprevention	Hormone Replacement Therapy	
Contraceptive Methods/Counseling ¹	(HRT) – Risk vs. Benefits	At least annually
 Folic Acid (childbearing age) 	 Urinary Incontinence Assessment 	
Men and Women		
Aspirin Prophylaxis (high-risk)	Physical Activity/Exercise	
Drug Use	Seat Belt Use	
Family Planning	 Statin Medication (high-risk) 	At least annually
Fall Prevention (age 65 and older)	 Unintentional Injuries 	
SCREENINGS/PROCEDURES*		
Women (Preventive care for pr	egnant women, see Maternity sec	tion.)
Bone Mineral Density (BMD) Test		19-64, test if postmenopausal and at risk for osteoporosis.
BRCA Screening/Genetic Counseling/ Testing		and not previously diagnosed with BRCA-related cancer and who have CA testing once per lifetime if recommended by your healthcare
Domestic/Interpersonal/Partner Violence Screening and Support	Age 19 and older: Screening annually and	l offer support services as determined by your healthcare provider.
Mammogram (2D or 3D)	Beginning at age 40, every 1-2 years.	
Obesity in Midlife Women	Age 40-60 with normal to overweight BMI	offer counseling to prevent obesity.
Pelvic Exam/Pap Smear/HPV DNA		y 3 years; HPV DNA: Age 30-65, every 5 years.
Men		
Abdominal Duplex Ultrasound	Age 65-75, one-time screening for abdom	inal aortic aneurysm in men who have ever smoked.
Prostate Cancer Screening	Beginning at age 50, annually. Begin at a	ge 19 for high-risk males.
Prostate Specific Antigen	Beginning at age 50, annually.	
Men and Women		
Alcohol Use Screening/Counseling	Age 19 and older: Offer behavioral counse drinking.	eling interventions for adults who are engaged in risky or hazardous
Anxiety/Depression Screening	Age 19 and older: Annually or as determin	ned by your healthcare provider.
Cardiovascular Disease Prevention	Age 19 and older at increased risk of card	iovascular disease (CVD); screening and offer behavioral counseling.
Chlamydia and Gonorrhea Test	Age 19-24 years, test all sexually active w	omen and 25 years and older test based on individual risk and der. Test as recommended when prescribed HIV PrEP.
CT Colonography ²	Beginning at age 45, every 5 years.	
Colonoscopy ³	Beginning at age 45, every 10 years.	
Diabetes Screening		eight or obese. If normal, rescreen every 3 years. If abnormal, offer
Fasting Lipid Profile	Beginning at age 20, every 5 years.	
Fecal Occult Blood Test (gFOBT/FIT) ⁴	Beginning at age 45, annually.	
FIT-DNA Test	Beginning at age 45, every 1-3 years.	
Flexible Sigmoidoscopy ³	Beginning at age 45, every 5 years.	
Hepatitis B Test	Age 19 and older if at high risk. Periodic r	epeat testing with continued risk factors.
Hepatitis C Test	Age 19 and older, offer one-time testing.	Periodic repeat testing with continued risk factors.
High Blood Pressure (HBP)	Age 19-39, testing every 3-5 years with no test annually.	o other risk factors. Age 40 and older, or younger if at increased risk,

LIV / DuED Mardianations with unlated	If an article duty / Decomposition of the first of the state of the st
HIV PrEP Medication with related Testing/Counseling	If prescribed HIV Preexposure Prophylaxis (PrEP) medications, offer related testing and counseling services as determined by your healthcare provider.
HIV Test	Age 19-65, offer one time testing with unknown risk for HIV. Periodic repeat testing with continued risk factors.
Latent Tuberculosis (TB) Infection Test	Age 19 and older at high risk, offer one time testing. Periodic repeat testing with continued risk factors.
Low-dose CT Scan for Lung Cancer	Age 50-80 at high risk, test annually until smoke-free for 15 years.
Obesity/Weight Loss Interventions	Age 19 and older with a BMI of 30 or greater: Offer behavioral interventions.
STI Counseling	Age 19 and older at increased risk: Behavioral counseling as determined by your healthcare provider.
Skin Cancer Prevention Counseling	Age 19-24: Counseling to minimize exposure to ultraviolet (UV) radiation for adults with fair skin.
Syphilis Test	Age 19 and older test if at high-risk. Periodic repeat testing with continued risk factors as determined by your healthcare provider.
Tobacco Use Assessment/ Counseling/Cessation Interventions	Age 19 and older: 2 cessation attempts per year including behavioral counseling interventions (each attempt includes a maximum of 4 counseling visits of at least 10 minutes per session); FDA-approved tobacco cessation medications ⁵
IMMUNIZATIONS**	
COVID-196	Age 19 and older: Refer to the CDC for dosing recommendations.
Haemophilus Influenza Type B (Hib)	Age 19 and older: Based on individual risk or healthcare provider recommendation, one or three doses depending on indication.
Hepatitis A (HepA)	Age 19 and older: Based on individual risk or healthcare provider recommendation, two or three doses.
Hepatitis B (HepB)	Age 19 and older: Based on individual risk or healthcare provider recommendation, two to four doses.
Human Papillomavirus (9vHPV)	Age 19-45: Two or three doses, depending on age at series initiation or healthcare provider recommendation.
Influenza	Age 19 and older: One dose annually.
Measles/Mumps/Rubella (MMR)	Age 19 and older: Based on indication (born 1957 or later) or healthcare provider recommendation, one or two doses.
Meningococcal A, C, W, Y (MenACWY)	Age 19 and older: Based on individual risk or healthcare provider recommendation: One or two doses depending on indication, then booster every 5 years if risk remains.
Meningococcal B (MenB)	Age 19 and older: Based on individual risk or healthcare provider recommendation: Two or three doses depending on indication, then booster every 2-3 years if risk remains.
Pneumococcal (PCV15/PCV20/PPSV23)	Age 19 and older: Based on individual risk and healthcare provider recommendation, one or two doses.
Tetanus/Diphtheria/Pertussis (Td/Tdap)	Age 19 and older: One dose of Tdap, then Td or Tdap booster every 10 years.
Varicella/Chickenpox (VAR)	Beginning at age 19: One or two doses (born 1980 or later) based upon past immunization or medical history.
Zoster/Shingles (RZV)	Age 19 and older: Based on individual risk or healthcare provider recommendation, two doses.
	annound contracentius methods. See the Dy Drayentius Coverses List at conitably serves cam for details. Coverses includes divised convises

¹ Coverage is provided without cost-share for all FDA-approved contraceptive methods. See the Rx Preventive Coverage List at capitalbluecross.com for details. Coverage includes clinical services, including patient education and counseling, needed for provision of the contraceptive method. If a member's provider recommends a specific FDA-approved method based on medical necessity, the service or item is covered without cost-sharing.

² CT Colonography is listed as an alternative to a flexible sigmoidoscopy and colonoscopy.

³Only one endoscopic procedure is covered at a time.

⁴ For guaiac-based testing (gFOBT), six stool samples are obtained (2 samples on each of 3 consecutive stools, while on appropriate diet, collected at home). For immunoassay testing (FIT), specific manufacturer's instructions are followed.

⁵Refer to the most recent Formulary located on the Capital Blue Cross website at capitalbluecross.com.

⁶ COVID-19 vaccine availability is dependent on government distribution during the public health emergency (PHE). Refer to the CDC for the most up-to-date information on COVID-19 vaccines.

Schedule for Maternity

SCREENINGS/PROCEDURES*

The recommended services listed below are considered preventive care (including prenatal visits) for pregnant women. You may receive the following screenings and procedures at no member cost share:

- Alcohol Use Screening/Counseling
- Anemia Screening (CBC)
- Anxiety/Depression Screening (prenatal/postpartum)
- Breastfeeding Support/Counseling/Supplies
- Gestational Diabetes Screening (prenatal/postpartum)
- Healthy Weight Gain during Pregnancy
- Hepatitis B Screening (first prenatal visit)
- HIV Screening
- Low-dose Aspirin Therapy (after 12 weeks gestation with highrisk for preeclampsia)

- Preeclampsia Screening
- Rh Blood Typing
- Rh Antibody Testing for Rh-negative Women
- Rubella Titer
- STI Screening/Testing (Chlamydia/Gonorrhea/Syphilis)
- Tobacco Use Assessment, Counseling and Cessation Interventions
- Urine Bacteria Screening (Asymptomatic)
- Other preventive services may be available as determined by your healthcare provider

* Services that need to be performed more frequently than stated due to specific health needs of the member and would be considered medically necessary may be eligible for coverage when submitted with the appropriate diagnosis and procedure(s) and are covered under the core medical benefit. If a clinician determines that a patient requires more than one well-woman visit annually to obtain all necessary recommended preventive services, the additional visits will be provided without cost-sharing. Occupational, school and other "administrative" exams are not covered. ** Refer to the guidelines set forth by the Centers for Disease Control and Prevention (CDC) for additional immunization information.

Schedule for Children: Birth through the end of the month child turns 19 years old

GENERAL HEALTHCARE

Routine History and Physical Examination - Recommended Initial/Interval of Service:

Newborn, 3-5 days, by 1 month, 2 months, 4 months, 6 months, 9 months, 12 months, 15 months, 18 months, 24 months, and 30 months; and 3 years to 19 years annually.

Exams may include:

- Blood pressure (risk assessment up to 2¹/₂ years)
- Body mass index (BMI; beginning at 2 years of age)
- Developmental milestones surveillance (except at time of developmental screening)
- Head circumference (through 24 months)
- Height/Length/Weight
- Newborn Evaluation (including gonorrhea prophylactic topical eye medication)
- Weight for Length (through 18 months)

- Anticipatory guidance for age-appropriate issues including:
 - Growth and development, obesity prevention, physical activity and psychosocial/behavioral health
 - Breastfeeding/nutrition/support/counseling/supplies
 - Safety, unintentional injuries, firearms, poisoning, media access
 - Contraceptive methods/counseling (females)
 - Alcohol, tobacco, or drug use assessment/education
 - Oral health risk assessment/dental care/fluoride supplementation (> 6 months)¹
 - Fluoride varnish painting of primary teeth (up to age 5 years)
 - Folic Acid (childbearing age)

Tetanus/Reduced Diphtheria/Pertussis (Tdap)					11–12 years; 1 dose																
Varicella/Chickenpox (VAR)	1 11							12–15 months, 4–6 years; 2 doses													

¹ Fluoride supplementation pertains only to children who reside in communities with inadequate water fluoride.

² Encourage all PA-CHIP Members to undergo blood lead level testing before age 2 years. If not previously tested, test between the ages of 3 and 6 years old.

³ Refer to the most recent Formulary located on the Capital Blue Cross web site at capitalbluecross.com.

⁴ COVID-19 vaccine availability is dependent on government distribution during the public health emergency (PHE). Refer to the CDC for the most up-to-date information on COVID-19 vaccines. ⁵ Children aged 6 months to 8 years who are receiving influenza vaccines for the first time should receive 2 separate doses (> 4 weeks apart), both of which are covered.

* Services that need to be performed more frequently than stated due to specific health needs of the member and would be considered medically necessary may be eligible for coverage when submitted with the appropriate diagnosis and procedure(s) and are covered under the core medical benefit. If a clinician determines that a patient requires more than one well-woman visit annually to obtain all necessary recommended preventive services, the additional visits will be provided without cost-sharing. Occupational, school and other "administrative" exams are not covered.

** Refer to the guidelines set forth by the Centers for Disease Control and Prevention (CDC) for additional immunization information including special situations and catch-up vaccinations if necessary.

This preventive schedule is periodically updated to reflect current recommendations from the U.S. Preventive Services Task Force (USPSTF); Health Resources and Services Administration (HRSA), National Institutes of Health (NIH); NIH Consensus Development Conference Statement, March 27–29, 2000; Advisory Committee on Immunization Practices (ACIP); Centers for Disease Control and Prevention (CDC); American Diabetes Association (ADA); American Cancer Society (ACS); Eighth Joint National Committee (JNC 8); U.S. Food and Drug Administration (FDA), American Academy of Pediatrics (AAP), Women's Preventive Services Initiative (WPSI).

Healthcare benefit programs issued or administered by Capital Blue Cross and/or its subsidiaries, Capital Advantage Insurance Company[®], Capital Advantage Assurance Company[®] and Keystone Health Plan[®] Central. Independent licensees of the Blue Cross and Blue Shield Association. Communications issued by Capital Blue Cross in its capacity as administrator of programs and provider relations for all companies.
